

# Tipper Payload Monitoring System Dashboard

Tippers are majorly used in mining, construction, steel plant, transportation & blue metal industries.

## Overall Productivity Summary

- Know your overall tones mined at all your mining sites
- Get updated with the overall trips
- Know the number of overloaded trips by your tippers

## Performance Tracker

- Compare your productivity with yesterday, last week and last month
- Know whether you have performed better that earlier or not
- Take actions to enhance the performance of your mines

## Payload Distribution

- Do your vehicles payload follow a bell curve distribution Find it here..
- See whether the overall trips done by your vehicle is under loaded, optimally loaded or overloaded with this feature

## Productivity report

- Get to know your performance with the below KPI that we find out
- Average tones/trip
- Trips/shift
- Cycle time/trip
- Tones/Shift
